- Identification of any part found to have a defect which is or could become a danger to persons and a description of the defect: (if none state NONE): **NONE**
- Is the above defect which is of immediate danger to persons? **NO**
- Is the above defect which is not yet but could become a danger to the person? (if yes state the date by when): **NO**
- Particulars of any repair, renewal or alteration required to remedy the defect identified above: **NONE**
- Particular of any test carried out as part of examination (if none state none): **VISUAL / FUNCTIONAL / LOAD**

**# SAFE TO USE AT THE TIME OF INSPECTION #**

This certificate becomes invalid if: any modification/ alteration/ repair or increase/ decrease in length/ supports/ or related components is made.

This is to certify that this equipment including its related components was tested without any injury /permanent deformation during the inspection. This equipment is safe for its intended use within the limits specified providing there is continuous maintenance applied by a competent body. GCSC liability shall be limited to the acts or omissions of its employees, agents & subcontractors. Under no circumstances shall GCSC be liable for any injury or damage to any person or occurring by reason of negligent operation or any defect in materials, machinery, equipment or other items related to the items covered by this certificate. \*This certificate / report shall not be reproduced except in full without approval of GCSC.

**"FIT FOR USE"**

As requested by the above-mentioned Client, I hereby certify that the Item(s) described above was tested and thoroughly examined as per BS 13889:2003+A1: 2008 and that the above is a true report of the result. This certificate is valid for 6 months from the date of issue, subject to any major defects or repairs and is issued on the basis of the results at the time of inspection. Neither the company nor the test inspector shall under any circumstances be responsible or liable for any damages caused by incorrect operation, or as a result of structural deficiencies, mechanical malfunction or negligence on the part of the owner or any other party.

This certificate will not be reproduced except in full without approval of both the inspection body and the client.
