Is any Alteration, Repair required before put into service? "No"	
Is any Defect that could be dangerous to person or site\plant? "No"	
Is Equipment safe to use? "Yes"	

This is to certify that the undersigned, a competent representative, did attend to examine this equipment to ascertain its safe working condition and that the examination indicated that the said equipment has no indigenous injury or sighted deformation and the safe working condition of the said equipment as either identified or tested is shown. The equipment is safe for its intended use within the limits specified and at the time of inspection was found to be satisfactory for further use, provided there is continuous maintenance applied and qualified operators employed. The inspection report shall not be reproduced except in full without the approval of the INSCAL and the client. Reports of INSCAL are issued for the exclusive use of the customer to whom they are addressed. No quotation from Reports or use of the INSCAL name is permitted except by INSCAL's express written authorization. Reports apply only to the specific materials, products or processes tested or examined and are not necessarily indicative of the qualities of apparently identical or similar materials, products or processes. This report will become invalid in case of any alteration/repair on the equipment and should be retested & inspected. The Standard with Asterisk Sign (*) is non accredited standard.
